Hear Mr. Dulles:

In the Recember mana of Reader's beget is a car derisation of your address before the Five in detroit in august. The article is entitled, "We Can't Lick Communion Without Understanding It." The first sentence states: There is a dangerous complaient attitude among warry people in The United States Today.

my first experience with Communism was in 1927 when I heard on engineer for the Marion Rosser Showel Company give a talk on his experiences in Eussia assembling a large marion sower shoul. Even though I was only Twelve, I was shocked at the deplorable living conditions of the Gersseen people under Communism. On 1945 Dentered the University of Washing in on the Hosill. For several months & ate my noon med at the Un-Yel just

off-compus. I took no part in the comrespection at the large round resitual table, because it only took me a few days to realize that all the other students were ardent Communists and members of what was known as the Margian Discussion Atrong. In the 4 of w Waily in the section devoted to rangere groups and neetings, the margin procusaion though always amounted their meetings. When

I chose the reporting of the the eleven Communists in Ithe movie industry. For material used the New York Times, Time Magazine and the baily Warber. Whereas most students in The class greented there of seven to ten pages, mine was forty-five pages. On class, forty-one of the forty-two themes were read in class. Mine was not. also, I was the only student to receive an "A" for the assignment. The instructor efflained that while my theme centered around the point as to how the trial was reported in different news media, many of the students would miss the point and would consider only the invocence or guilt of the element defendant. Sime then I have carried on a constant study of all the runifications of Communism. I have read the works of Mary and Engls. I have read the Communist Maniefesto. I

have topproved For Relast 20021011/29 TCIA-RDF801301676R003600 150001-8 occur all over the heald that have anything to do with Communism. and now, as I set here ruriting this letter, I have a dup-seated depressed feeling of a man un the gatheres with the rope around his neck, and the thap-door about to be spring from under his weighted frit. This depression stems directly from my knowledge of Communism and the complacency of the american public. I know That a "mountain of hand evidence" has passed over your desk. I know that there are annerice no risking their lives This very moment to continue to build This mountain of enidence. I know the facts are spread all over the world for everyone to su. and get a read rolumn after rolumn in the Columbus Cityen Journal each morning, The Marion (This) Star each night, and the Columbus Dispatch on Sunday about Liz Fayloris headache, Gerry Liceas's score in the Ohio State basketball games, the Fineh- Tregoff murder Trial, and the details of insignificant projects of garden clube and young matrous societies. Even The details of the events in remote parts of the world that will, in the near future, Suret into a flaming holocuret Its endanger the lives of each and every american is passed over lightly on the front page or usually, if wentioned

in the back pages. Little to the editor asking for a greater emphasis on the growing menace to the future of inverice for instance, the most of the front page of the Marion Star tonight was devoted to the drop in temperature to six below gers. my God!!! & knew it was six below. But not one word was grinted of the radio reported no blood was shed, this event is of wital importance locally because Marin Ludwig, a graduate of Harding High School and ruel benown he ally, is the general secretary of the ymch in Ethopia. The conjecture on the radio, An away of London, is that the son of Emperor Haille Silassie is only a front man for a group that has other plans for the futher of Ethopia. From my experience, the general attitude of all but about 50 of the 60,000 from in Marion County tomorrow morning will be So What?" To me it is a tragedy that those persons anch as jourself could not prepare plans to shock the american people into an awareness of the growing menace to the future of every cityen in this nation. The american public has become so self. rentered and synical that it would take more than the 1938 Orson Welles radio program of the invasion of the United

States & pproved for Refease 200 107 129 10 1 A PDP 80 B04 67 0 200 200 15 0,001 & he masters in the Semlin are depending on this eynicion, egotion, and complacency to accomplish their purpose. It is just as you, and every Communist document, states, without reservation, that the aim and goal of Communism is complete and absolute control of the world. The only solution I see is for you and the staff of the CJA to may out a massime program of saturation of every single facet of news media in america. This would include not only the newspapers, radio, and television, but the movines, farin papers, trade magazines, minon papers, comic books, and religious publications. The program will have to be tailer-made for each means of communication. Not only will the program have to be planned to reach the minde she a vigilant effort made to quarantee be a vigilant effort made to guarantee that each detail of the plan is properly presented to that segment of the society for which it is designed. The plan must spare more of the. siskening details of the atrouties which have been committed for the advance of Communism. Ces an example, in the same issue of Reader's Wiglet order, "Terror in Libet" by Towell Thomas, "Myet to Tourists in Societ Russia " from the Ohristian

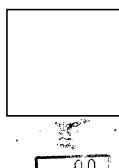

beience Reproved to Release 2002007128 & CIA DDB80B01676R00360015000281110 "from the New York Fines Magazine. The CIA is going to have to keep banging away at the Converiean public just as the Chio State football team keeps slamming through The center of the line week after week, year after year. It is this constant and unrelenting, brutal, bruising ground attack that causes a sell-out for all home games by mid-lugust and a crowd of over 80,000 fams for every game for the past nime years. Ihre may be time to awaken the Shore may be time to awaken the past to the truth about lomminism, But from the world situation as I su it, it might be too late. A good place to start is on Congress. Then the state legislatures must be alerted. Then the city councils, schools, rolling, and churches are going to have to be whited. Only then will the public be roused out of their romplacing and understand Communism so that it can be migsed from the face of the earth. Only then will the people of america understand why a young Hungarian couple who barely escaped the 56 Burdapest bloodbath with their lives can continue to live because they found refuge in Marion, their from Communism in Europe. Was their flight in vain, or are the american people also going to perish because they refuse to face the bloody sickening facts?

The forest bloody sickening facts?
